Grassroots Democracy

The Sunset and Parkside have been abandoned to City Hall political games for far too long. Our "representatives"--proxy votes for the Mayors who appointed them--shuffle off to Sacramento or to vacant city positions as a reward for their obedience. Political insiders have sold us out. Political hacks have turned their backs on us to do the bidding of their big money donors.

This politics of trading favors must end.

- We deserve a real say in decisions that affect our lives, our families, our futures.
- We deserve a real representative democracy that works, not one that wastes.
- We can do better than trickle-down, top-down decisions made by a few select investors.

I have proudly called San Francisco my home since 1996. My wife and I bought our house in the Outer Sunset over a decade ago. Our native 10 year old son attends public school here. Ocean Beach is our home break. Golden Gate Park is our back yard. Like many of you, we have invested all we have in our home and this City That Knows How.

Like many of you, we wonder if it will become the city that gave it away.

Real Representation in City Hall

As your Supervisor, I'll bring a lifetime of work experience—as a civil servant, educator, husband, and father—to the job. Being your representative in city government will be my only job. I will work for you and your family, NOT SPECIAL INTERESTS.

- I will keep my office **open, transparent, and responsive.**
- I will help maintain our Neighborhoods (Housing and Businesses) and **stop City Hall's sell-out** of our communities. In the past 6 years, 1/3 of our neighbors have left town and neighborhood businesses have shut down. Shuttered storefronts, homes sold/rented/sold again--**this destabilization should end.**
- I will **legislate** a vacancy tax, a tax on out-of-town ownership, & true disclosures on real estate transactions.
- I will do everything I can to **preserve local businesses and keep our neighborhoods intact.**
- I will work to **Fix our broken Transportation system:** Put back our stolen train stops and buses; Protect public roads and sidewalks from overuse/abuse by ride-shares, luxury buses, electric bikes & scooters, and wasteful city projects.
- I will **protect our Neighborhoods: Oppose wasteful, massive, ugly density development projects** that feed developer greed and wreck Neighborhood aesthetics.
- I will **oppose corporate marijuana dispensaries.**
- I will **demand a safe urban environment & clean water.**
- I will **Protect our Coastal Zone.**
